

# School Safety Grant Program

The safety of students and staff is always a priority for administrators, but ultimately, security relies on funding. Today's tight budgets make maintaining high levels of protection difficult. To help schools access the billions of dollars available in Federal grants, Meridian IT is offering complimentary grant writing.

With a consultative approach, your Meridian team will meet with you to understand your school's needs, discuss possible grants and work collaboratively to recommend the equipment and funding needed to ensure the highest degree of safety for your student body, staff, and community. We can help you:

- Create or update your school security and communications systems
- Stay within budget by utilizing grants and bundling targeted products
- Support existing security systems with innovative, integrated solutions

**As a leading communication solutions provider, Meridian IT offers a comprehensive Alert System Solution:**

**Alert Panel**

Captures attention by flashing and emitting loud alarm; also displays emergency message

**Cable TV Override**

Display alert by overriding the content on all tv stations

**Panic Button**

Individuals can use this device to call for help; a safety cover is used to prevent false activations

**Digital Signage Override**

Display alert by overriding the content on all digital signage systems

**Desktop**

View emergency alerts on your desktop on network connected computers

**LED Marquee Display**

Used with the alert panel to display messages

**Text to Speech**

Interface for Indoor/Outdoor Public Address Speakers – customer alerts via your notification speakers

**Call Vista**

Messages can be sent to desk or cell phones, voicemail; SMS texting capability

**Fire Alarm Interface**

Consistent alerting systems integrated between your fire and mass notification systems

**Email**

Messages can be sent to any internal/external user

**VoIP Phone**

Deliver message via your VOIP system

**Mesa**

Supports wireless panic buttons, motion detectors, cameras and alarm systems

**PoE Audio**

Visual and LED signs – displays alerts/messages enhanced with flashing strobes and audio PA

**See which security products and grants are right for you.**
